

Fruit Tree Grafting Workshop

Kunia Loa Ridge Farmlands, Pavilion

Date: Saturday August 23, 2025

Time: 10 am

**Learn about the Grafting Basics, including the science and art of grafting.
Topic covered include**

- **Selection of Rootstocks and Scions**
- **Knife Handling**
- **Tools and Techniques**
- **Tips and Tricks**
- **Questions/Answers**

Participants are encouraged to bring their own rootstocks and scions

Grafting tools and materials will be available for practice.

Fee: The event is Free to KLRFL members. Please bring your own mango or avocado rootstocks, if available. Bring extra to sell/share with fellow farmers who do not have a rootstock. Scions will be provided free of cost but bring your own if so desired.

Presenter: Dr Kabi Neupane, Lot 91B, is a fellow farmer. He holds a Ph.D. in Plant Science from the University of Hawaii College of Tropical Agriculture and Human Resilience. He is a Professor of Biology at Leeward Community College and has over 25 years of teaching and research experience in plant sciences.
